Get your 1 Day Website Contract ready to go! Go to <https://bizzybizzy.biz/lessons/the-papers> and look in the Materials tab for "Sample 1 Day Website Development Contract for Client." Download the Google Doc and customize it for your business. Read it carefully and make sure all the legalese makes sense for your business (and your country / state). When in doubt, ask a lawyer for help. *Juicy tip!* many universities have pro bono (free) legal services through their law schools. Also, many legal firms offer office hours at co-working spaces with pro bono consultations. Look around to see if you can get some cheap or free legal help!
